

Cookies

What is a cookie and do we use them?

A cookie is a small file that a site or its service provider transfers to your computer's hard drive through your web browser (if you allow it to) that enables the website or service providers systems to recognize your browser and capture and remember certain information. We use cookies on this website to help us remember and process the items in your shopping cart and understand and save your preferences for future visits.

If you prefer, you can choose to have your computer warn you each time a cookie is being sent, or you can choose to turn off all cookies via your browser settings. Like most websites, if you turn your cookies off, some of our services may not function properly. However, you can still place orders over the telephone.

Information on deleting or controlling cookies is available at www.aboutcookies.org.
